Step 407: The subscriber submits a request to share one or more services to the wireless service provider 121 that services the wireless telephone to receive the shared service or services

Step 409: The wireless service provider receiving the request to share services contacts the wireless service provider that actually provides (or authorizes a wireless carrier to provide) the service or services to be shared

Step 411: The subscriber provides a fee to the wireless service provider from whom the subscriber requested the shared service or services

Step 413: **(Optional)** Some (or all) of the fee is conveyed to the wireless service provider actually providing the shared service or service

FIG. 4B

Step 501: The billing center 113A associated with the personal wireless telephone 201 collects usage information for the personal wireless telephone 201

Step 503: The billing center 113B associated with the vehicular wireless telephone 203 collects usage information for the vehicular wireless telephone 203

Step 503: The billing centers 113A and 113B combine the usage information and generate a bill according to the provisions of the single service plan for both wireless telephones
